

Manu Vinayak

BI Consultant | Power BI, SQL, PySpark | Driving Scalable Analytics on AWS & Azure

+91 7717764848 | manuvinayak5@gmail.com | LinkedIn | Purnia, Bihar, India

PROFESSIONAL SUMMARY

Data Engineering and Business Intelligence professional with over **3.5 years of experience** in building scalable BI solutions and delivering insights for FMCG and consulting clients. Skilled in creating **advanced Power BI datasets** supporting **100+ reports and dashboards** across various business areas.

Experienced in **developing data pipelines**, **optimizing SQL**, designing **ETL workflows**, and working with **Spark** and **Azure Databricks**. Strong **consulting and client-facing skills** help turn business needs into effective data strategies. Led **data migrations** that improved reporting speed by **30%**, doubled system availability, and cut costs by **40%**. Focused on automating reports and using **AI** to provide deeper business insights.

EDUCATION

Bachelor of Computer Applications (BCA)

Vidya Vihar Institute of Engineering and Technology, Bihar **CGPA: 8.88** | 2018 – 2021

TECHNICAL SKILLS

- ❖ **BI Tools:** Power BI, DAX, Power Query, Power Automate
- ❖ **Data & Cloud:** SQL, Azure Databricks, AWS, Azure
- ❖ **Programming:** Python (Pandas & PySpark), Advanced Excel
- ❖ **Methodologies:** Data Modeling, Workflow Automation (Power Platforms), BI Strategy

PROFESSIONAL EXPERIENCE

Deloitte Consulting India *Kolkata, India November 2021 – Present*

Consultant *(June 2024 – Present)*

- ❖ Designed and optimized over **100 complex SQL queries** supporting financial modeling and acquisition analysis for major FMCG clients, **improving data accuracy and decision-making speed**.
- ❖ Architected scalable BI solutions for enterprise clients, delivering **100+ Power BI reports and semantic models** across global business units, **improving executive reporting turnaround by 25%** and **reducing ad-hoc data requests by 30%**.
- ❖ Led modernization of legacy BI infrastructure by migrating **5+ large-scale solutions to Power BI**, resulting in a **35% cost reduction**, **doubled report refresh rates**, and **improved scalability across regions**.
- ❖ Facilitated data strategy workshops with senior stakeholders across sales, finance, and operations, translating complex requirements into data products that improved stakeholder alignment and **boosted BI adoption rates by 30%**.
- ❖ Established and enforced BI governance frameworks across teams, **standardizing 30+ Power BI datasets and implementing reusable DAX patterns**, which **cut development time by 25%** while **enhancing data accuracy and trust**.
- ❖ Mentored and up skilled a team of **8+ analysts and engineers**, leading to a **40% increase in team delivery velocity** and **improved quality in dashboard design, query optimization, and automation workflows**.

Analyst *(November 2021 – May 2024)*

- ❖ Built and maintained more than **50 executive-level Power BI dashboards** using advanced DAX expressions, enabling **real-time insights and strategic planning** for senior leadership.
- ❖ Created a maintenance dashboard leveraging **full anti join techniques** to identify and categorize missing, partially mapped, and unmapped data, **improving data quality management and accuracy**.
- ❖ Developed automated cost reports that **extract and consolidate Azure-based expenses across different project tracks**, eliminating manual presentation efforts and **streamlining financial tracking**.
- ❖ Led critical data migration initiatives from **Azure Analysis Services (AAS) to Power BI semantic models for NRM**, resulting in a **30% improvement in reporting efficiency**, **2x increase in report availability**, and **40% reduction in infrastructure costs**.
- ❖ Collaborated with cross-functional teams across sales, finance, and IT departments to **align BI outputs with business goals**, driving increased stakeholder satisfaction and adoption.
- ❖ Automated key reporting workflows and integrated **Power BI with Power Automate and SharePoint**, reducing manual reporting efforts by over **50%** and **accelerating delivery timelines**.
- ❖ Resolved complex production issues, optimized legacy setups, and earned **“go-to” reputation**.

CERTIFICATIONS

- 📜 Microsoft Certified: Azure AI Engineer Associate (AI-102)
- 📜 Microsoft Certified: Power Platform Functional Consultant (PL-200)
- 📜 AWS Certified Solutions Architect – Associate (SAA-C03)

ACHIEVEMENTS/AWARDS & VOLUNTEERING

Consistently recognized at Deloitte with accolades such as **Live the Dot**, **Move the Dot**, and **Applause Award**, reflecting the impactful contributions and embodiment of firm's values. Actively supported talent acquisition as part of the hiring operations, while also mentoring and onboarding new hires-accelerating their integration and upskilling them in analytics best practices.
